E-Tendering System

1. Introduction to E-Tendering System:

E-Tendering means electronic tendering process which is electronically generated by computer under the handling of authorized person. Compared to manual process E-tendering process is very economical, effortless, transparent and very time saver process and it is also secure & accurate.

2. Login & sign-out

2.1 Login Page

- The first page you see is the login page, where the user has to enter the user-id and password.
- At place of "Enter User Name" user has to enter their ID whereas in place of "password" the password must be entered

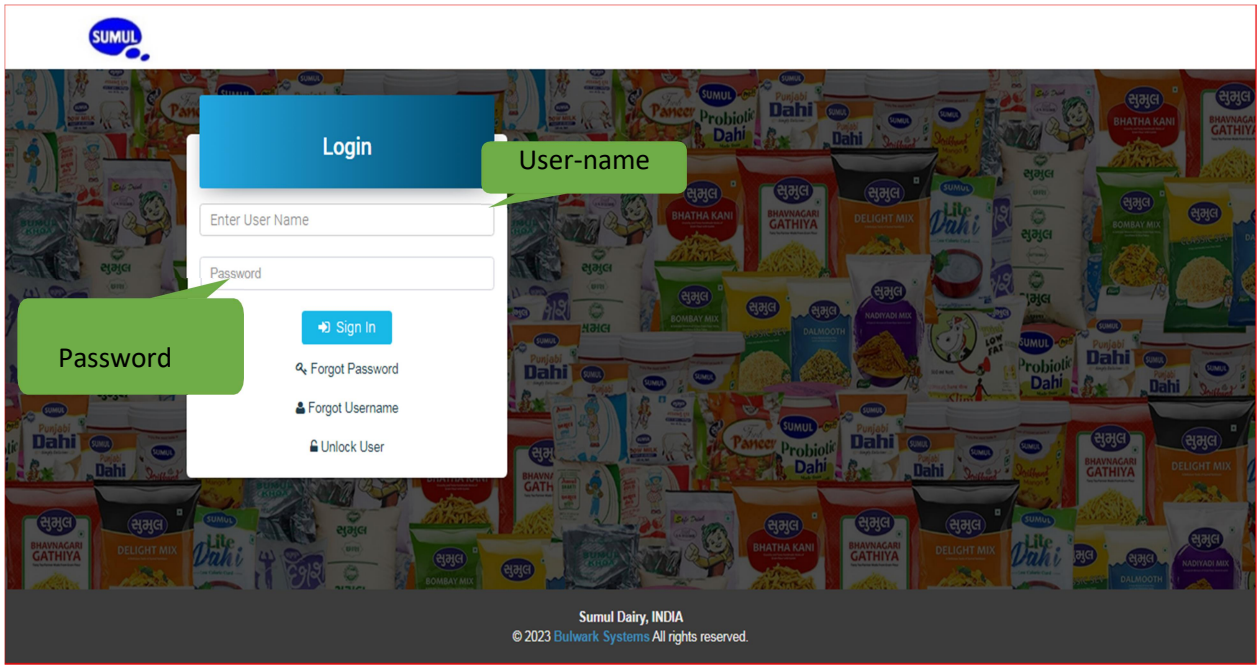

Figure 2.1: Login Page

For example, to login in admin account enter in "User ID" field "admin" and in the "Password" field "******" (password of the admin account) then press "OK" button so, if entered User Id and Password is valid then access their account otherwise error message will generate.

If any user forgets "password" then click on the "Forget Password" link for further operation to get it back. If any user forgets "User Name" then click on the "Forget User Names" link for further operation to get it back. By clicking on the "Unlock User" link, the user can unlock any user if rights are given.

(Note: if any user enters the wrong user id and/or password five times then that user account is blocked.)

2.2 How to change Password?

- Now, to Change user password goes to top right side menu ->Admin ->“Change Password”. Then user will see below page.

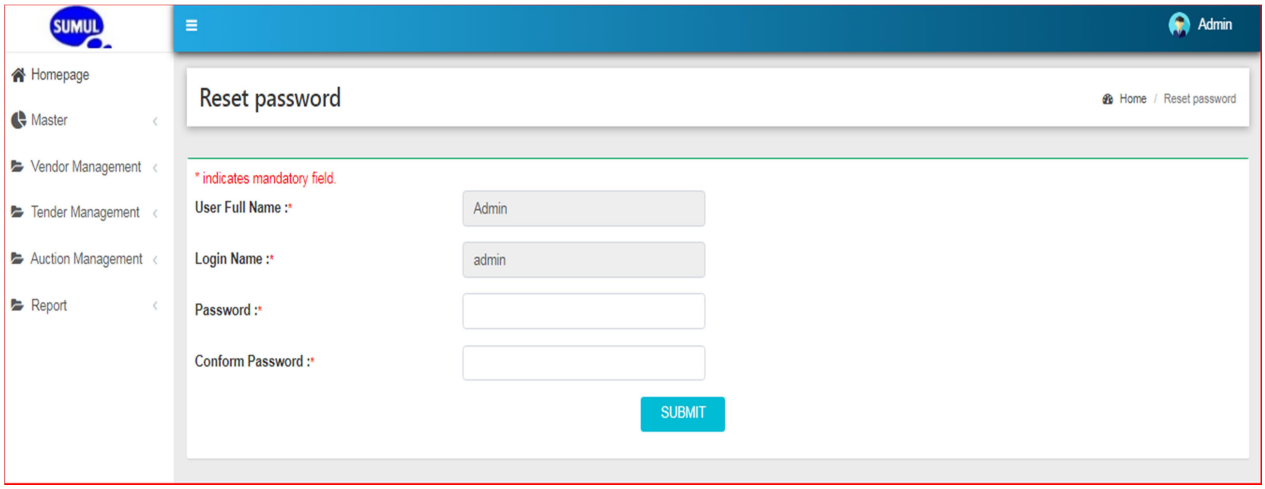

Figure 2.2: Change Password Page

- In above page user can see user name & current password which are already there. If rights are given, from this page user can change the password, for that user should enter the new one password into two text box, one is “New Password” & the other is “Confirm Password” fields. Then click onto the “Ok” button.

2.3 How to sign out?

- User can see “Sign-out” menu item, after clicking it user will be redirected to the login page. The below page is login page. Again, if user want to login into system then that is possible from here

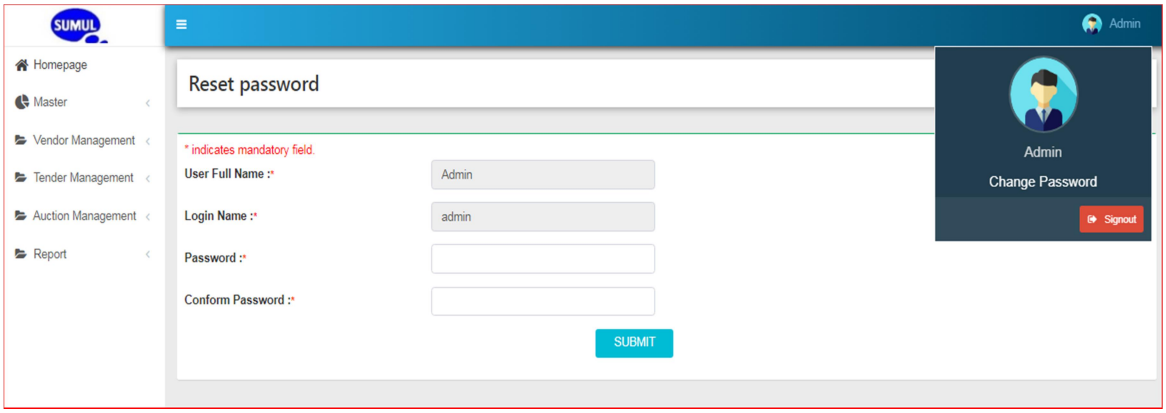

Figure 2.3: sign out page

3. The outlook of Home page:

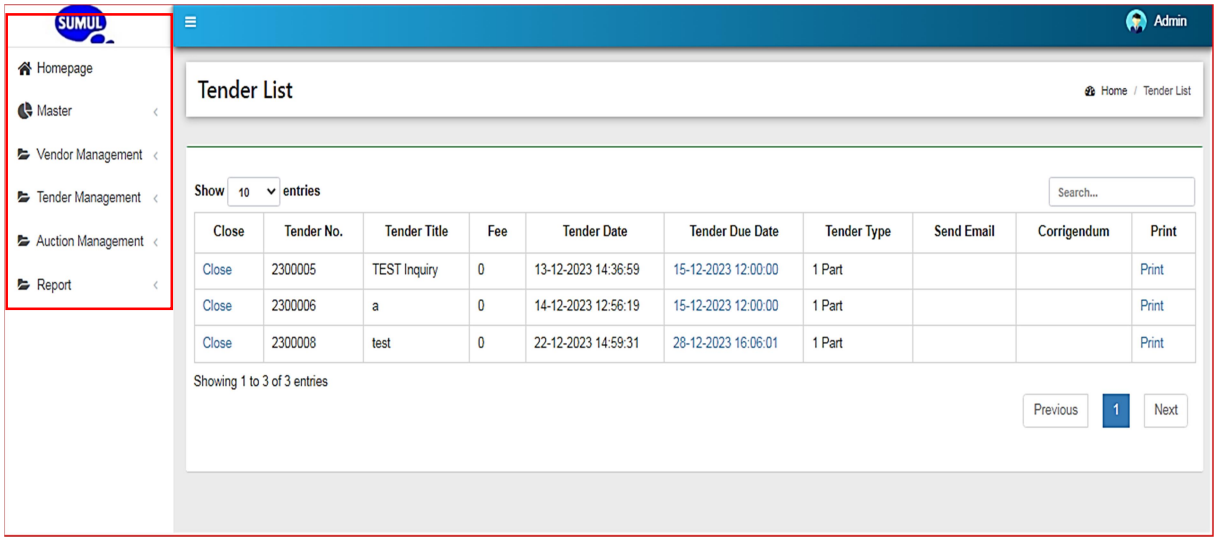

Figure 3.1 Home page

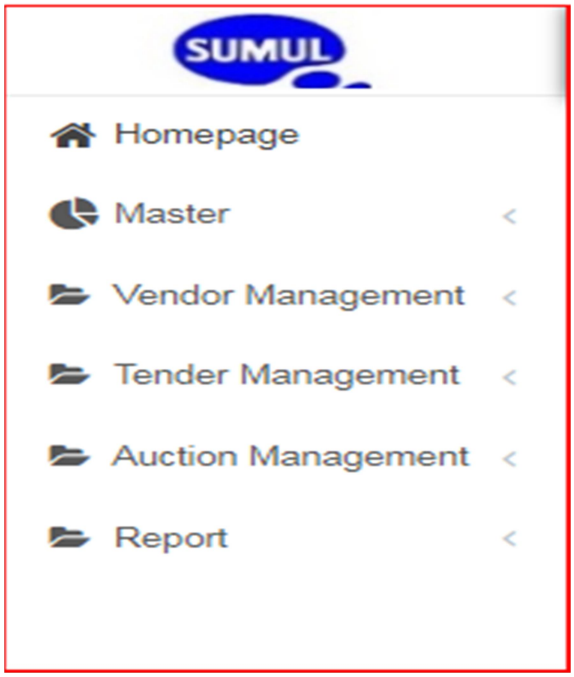

Figure 3.2 User will see these 6 dilouge boxes

4. Master

4.1Manage Employee :

- On clicking Manage Employee: It will open the list of employees available
- It will also provide an “action” button for further details;

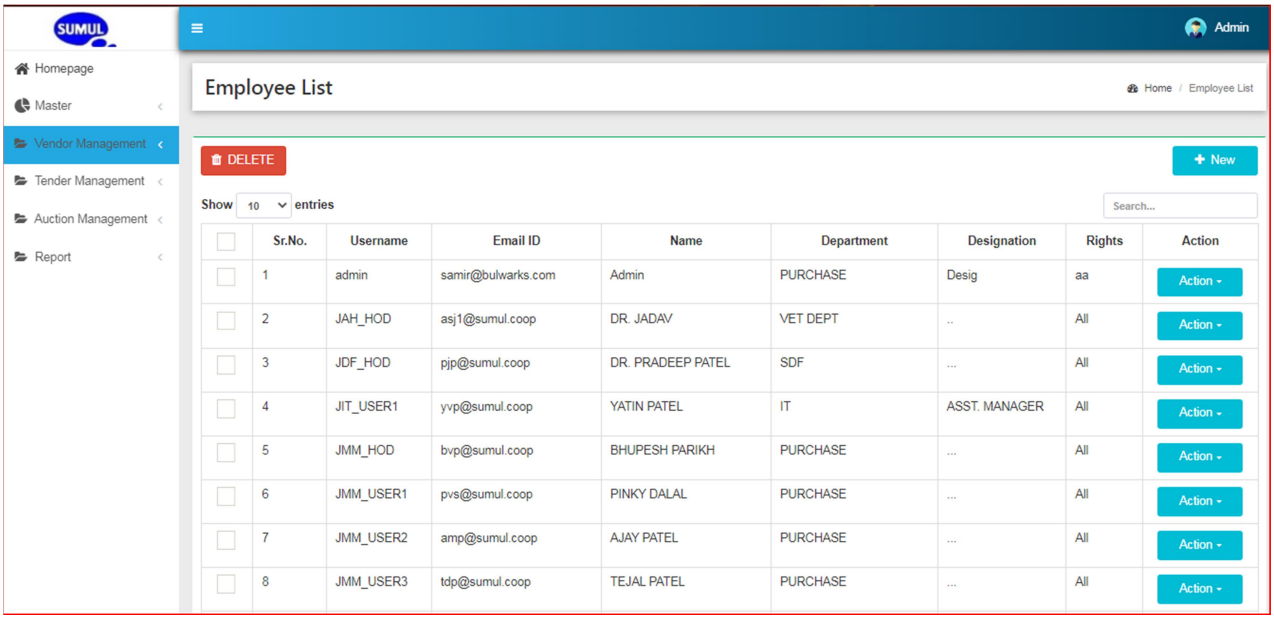

Figure 4.1 Employee List Page

4.1.1 Create New Employee

- To create a new employee click on the “+New” button on the top right menu.
- To delete the existing employee details click on the “Delete” button on the left side.
- On clicking “+New” the following page will display.

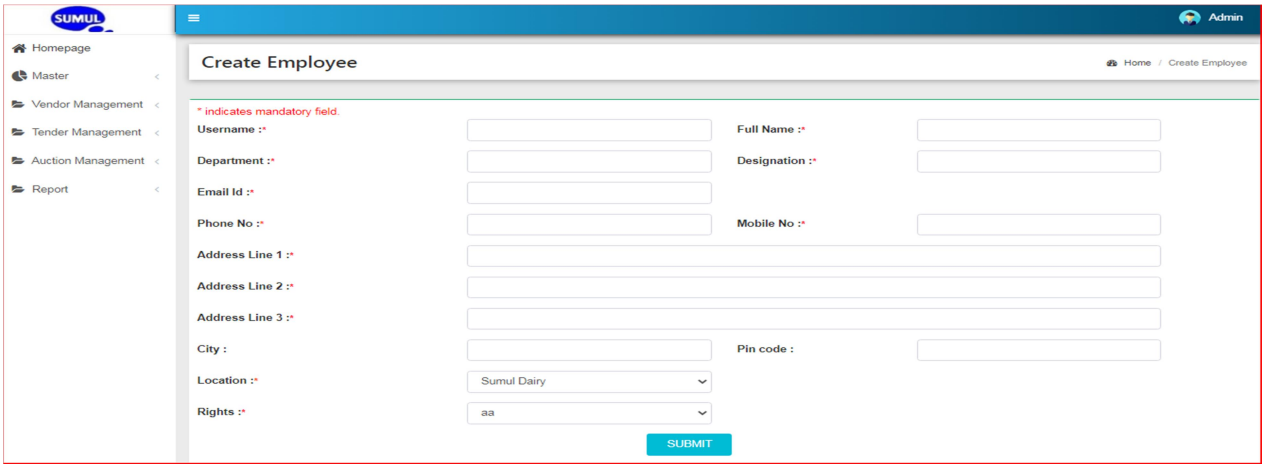

Figure 4.2 Create employee Page

- After adding all the details on the Create Employee page click on the “Submit”

button. It will be added to the employee page list.
